RESTAURANT

NIAGARA FALLS STATE PARK
NEW YORK USA

A wide-angle, high-angle photograph of the Niagara Falls, showing the massive volume of water cascading over the rocky ledge. The water is a deep blue-grey, and the spray at the base is white and misty. The sky is a pale, hazy blue.

Welcome

“Niagara was at once stamped upon my heart, an image of Beauty; to remain there, changeless and indelible, until its pulses cease to beat forever.”

– Charles Dickens

Top of the Falls Restaurant is operated by Delaware North Parks and Resorts. We believe in using locally grown, sustainable products whenever possible as part of our commitment to protect our environment. In order to do our part in conserving, we do not set the tables with glasses of water. Please ask your server if you would like one.

Our culinary team has searched the area to provide not only the best that Western New York has to offer, but sustainable ingredients from around the country as well. We source and serve seafood approved by the Monterey Bay Aquarium sustainable seafood program.

We are well-versed in culinary nutrition and upon request will gladly prepare entrees to accommodate special dietary needs. Calorie counts are on our menu and complete nutritional information is available upon request.

Thank you for choosing Top of the Falls Restaurant.
Please enjoy your meal and your stay in Niagara Falls State Park.

Our handmade Beef Burger (shown with Bridal topping) is a house-made mix inspired by the original sandwich created at, and named for, a local County Fair in Hamburg, NY. In 1885, after running out of pork for their sausage sandwiches, the Menches brothers got creative with ground beef and common household ingredients to stay in business, and accidentally invented the world-renown Hamburger. Another delicious favorite developed here in WNY, enjoy!

Ground beef is cooked to medium-well per New York State Health Law

The Beyond Meat Burger (shown with Three Sisters topping) is a delicious alternative to beef! This 100% plant-based burger offers all the juicy taste and texture you've been craving without the guilt and is naturally Soy, Gluten and GMO free. *Gluten-Free roll available upon request*

Niagara Falls State Park

Niagara Falls has the honor of being the oldest state park in the United States, formed in 1885. It goes without saying that water is the main attraction of Niagara Falls. About 300 acres of the over 400-acre state park are under water. Although not the highest waterfalls in the world, they move an incredible volume of water (more than 280 tons per second) over the precipice. The rushing water drains from four of the five great lakes: Superior, Michigan, Huron, and Erie, before it plunges over the falls.

Terrapin Tower (1833-1873)

Designed by renowned landscape architect Frederick Law Olmsted, Niagara Falls State Park is an enduring legacy of the man who believed that Niagara belongs to all of us. Native vegetation and wildflowers display what Olmsted described as the “exceeding loveliness of the rock foliage.” The park’s network of footpaths through wooded areas and along the banks of the Niagara River allows visitors to see nature at her best.

Ice Mountain at foot of Falls

American Falls dewatered in 1969

According to legend, the honeymoon trend was started in 1801 when the daughter of future U.S. Vice President Aaron Burr, Theodosia, and her new husband, Joseph Alston, traveled to Niagara Falls a few months before their marriage. Then in 1804, several months after his marriage, Jerome Bonaparte, (Napoleon’s younger brother) honeymooned at the falls with his American bride, Elizabeth Patterson.

Annie Edson Taylor with barrel

Mrs. Annie Taylor, a 63-year-old widowed school teacher, decided a trip over the falls in a wooden barrel was her ticket to fame and fortune. On October 24, 1901, she became the first person to survive a trip over the falls and as she emerged from her barrel, she reportedly said, “No one ought to ever do that again.”
