DESSERT & DRINK MENU

It's the way to dine.

We think you'll enjoy your meal even more by knowing that our culinary team is working to protect our planet through GreenPath®, our environmental management system.

We are in full compliance with the Monterey Bay Aquarium's Seafood Watch Program. We protect our waterways by using only sustainable fish and seafood in our menu items.

We use long-line haddock. These fish are caught via a hook and line rather than a net. The process reduces overfishing and poses far less threat to our waters.

A western New York firm (Baker Commodities) helps us convert our used kitchen grease into alternative fuel sources that are distributed throughout our local communities.

SARATOGA, NEW YORK SPARKLING, 12 OUNCES

Saratoga Mineral Springs sparkling spring water is the perfect balance of light taste with just the right amount of carbonation. The Champagne-like bubbles help cleanse the palate and complement the flavors of fine food and wine.

SARATOGA, NEW YORK STILL, 12 OUNCES

The Saratoga Mineral Springs are the result of a geological fault that allows water trapped in shale layers to surface. Drinking and bathing in the waters of Saratoga Springs was regarded as medicine by the Mohawk and Iroquois Indians, who celebrated its strong healing and curative properties.

Niagara Falls State Park is proud to showcase local New York State foods and beverages with the Taste NY program. Help us support these local businesses by looking for the  during your visit.

9.95

The inspiration for this drink is the Hurricane Deck at the base of Bridal Veil Falls and the yellow ponchos provided to those who take the trek. At 175 feet down, the rushing waters of the Niagara Gorge create tropical storm-like conditions. Talk about a rush!

FROZEN COCKTAILS
